Contents of volume 178

Contents of Volume 178 No. 1

Special Issue:

Abstracts of the British Toxicology Society Annual Congress, University of Kent, Canterbury, UK, 7–10 April 2002

Paton Prize Award Lecture:
The cytochrome P450's and reactive metabolites
Ron Estabrook 6

Australasian Society of Clinical and Experimental Pharmacologists and Toxicologists (ASCEPT) Award Lecture:
Impaired CYP function and regulation in experimental liver disease
Michael Murray 8

Young Investigator Award Lecture:
From xenobiotic chemistry and metabolism towards better risk assessment in skin allergy
Camilla K. Smith Pease 10

Invited Speakers Abstracts:
In Vitro Toxicology Society Symposium: "Intracellular Trafficking"
Mechanisms responsible for the internalisation and processing of cell surface receptors
C. Hopkins 12
Role of the large GTPase dynamin in mediating cellular uptake of toxins and trophic factors
M. McNiven 12
Protein quality control in the endoplasmic reticulum and its cytoplasmic proteasome connection
D. Wolf 13
Cytoskeletal trafficking
P. Fernyhough 13
Receptor trafficking
J. Koenig 14

Occupational Toxicology Speciality Section Symposium: "Biological Monitoring and Biological Effect Monitoring Occupational Toxicology"
Biological monitoring and biological effect monitoring: definitions and practical considerations
C. Aw 15
Biological and biological effect monitoring for exposure to metals
B. Widdop 16
Immunological markers for exposure to workplace agents
A. Curran 16
The relationship between ambient air monitoring and biological monitoring
A. Robertson 17
Setting standards for biological monitoring in the UK, Europe and the US
J. Cocker 18

Drug Metabolism Group Symposium: "The ABC Transport Proteins"
Structure and function of the multidrug resistance P-glycoprotein
C. Higgins 19

The role of transporters in drug absorption, distribution and excretion
P. Morgan 20
Functional polymorphisms in human drug transporters
U. Brinckmann 21
Transport proteins and brain micro-vessels
M.A. Barrand 21
ABC transporters and inflammation
G. Jansen 22

Biotechnology and Immunotoxicology and Allergy Speciality Section Symposium: "The Nutritional and Safety Evaluation of GM Foods"
The nutritional and safety evaluation of GM foods
D. Esdaile 23
Practical difficulties in testing whole foods
G. Pigott 24
The nutritional and safety evaluation of genetically modified foods; animal nutrition studies
D. Beever 25
Animal safety studies
M. Martens 26
Animal models for allergenicity assessment
I. Kimber 27

Symposium: "Computational Toxicology"
In silico prediction of toxicity with *DEREK* for windows
J. Langowski 27
A mathematical framework for predicting in vivo PK and toxicology
D. Leahy 28
Getting more meaning from tox data using computational tools
J. McNamee 29
Facts and artefacts: pitfalls in bioinformatic analysis exemplified by data from a new family of rat urinary proteins
C. Southan 29

Young Toxicologists Group Symposium: "Adventures in Toxicology"
Structural characterization of oligonucleotide adducts formed by the food mutagen PhIP
K. Brown 30
Demonstration of genomic and proteomic methods as profiling tools for predictive toxicology
S. Wildsmith 31
Modulation of DNA-oxidation and repair by sodium dichromate in cultured A549 human lung carcinoma cells
N. Hodges 32
Translating the measurement of malondialdehyde-deoxyguanosine adducts from preclinical models to patients
R. Sharma 32
Comparison of in vitro and in vivo models of hepatotoxicity—experience with ethanol
N. Smith 33

Regulatory Toxicology Speciality Section Symposium: "Mixture of Chemicals: what are the implications for Regulators"
Toxicology of mixtures
A. Kortenkamp 34
Toxicology of mixtures of food additives
J. Groten 35
Interaction between pesticides and impact on risk assessment
I. Dewhurst 35
Cumulative risk assessment of pesticides that share a common mechanism of toxicity
V. Dellarco 36
The working group on mixtures of pesticides and other substances
T. Marrs 37

Symposium: "Hormonal Imprinting and Endocrine Disruption: Potential Consequences to Health"
Sensitive periods for hormonal influences on maternal imprinting
E.B. Keverne 38
Industrial chemicals as potential endocrine disruptors
J. Ashby 38

Effects of antiandrogens on male reproductive development
P. Foster 39
Endocrine disruption and feminization in fish
J. Sumpter 39

Oral Communications
Influence of the skin reservoir on absorption of testosterone through rat skin in vitro and in vivo
F.W. Lee, H. Minter, C.K. Smith Pease and F.M. Williams 40
Exposure of mice to sulfamethoxazole metabolite stimulates interleukin 5 expression
J. Hopkins, D.J. Naisbitt, N. Humphreys; R.J. Dearman, I. Kimber and B.K. Park 41
Study of the residues in conserved C-helix region of CYP4A1: bacterial expression and mutagenesis
M.Q. Fan, V. Holmes, C.A. Laughton, P.N. Shaw, D.A. Barrett and D.R. Bell. 42
Structure-activity relationships of CYP4A1
V.E. Holmes, F.M. Qi, C.A. Laughton, D.R. Bell, P.N. Shaw, and D.A. Barrett 43
Allergen-induced changes in glycosylation-dependent cell adhesion molecule-1 (G1yCAM-1) in murine lymph node cells
C.J. Betts, H. Caddick, M. Cumberbatch, J. Moggs, G. Orphanides, R.J. Dearman, C.A. Ryan, G.F. Gerberick and I. Kimber. 44
Non-genotoxic liver carcinogens: early effects on gap junctions, cell proliferation and apoptosis in the rat
A. Mally and K. Chipman. 45
Species differences in response to the phthalate plasticizer monoisononylphthalate (MINP) in vitro: a comparison of rat and human hepatocytes
D.A. Shaw, R. Lee and R.A. Roberts 46

Posters
Cytochrome P450 2E1: lobular localisation in alcoholic liver disease (ALD)
D.R. Miller, P. Starritt, G.I. Murray, P.W. Brunt, T. Sinclair and G.M. Hawksworth 47
Inter-individual variation of human liver GST activity
C. Sams and G.D. Loizou 48
Systemic exposure of mice to Ara h 1 and Sol t 1 stimulates divergent IgG and IgE antibody
R.J. Dearman, R.E. Goodman, J.D. Astwood, G.A. Bannon and I. Kimber. 49
Mechanism of PPARα agonist-induced hypolipidaemia in guinea pigs
H.M. Sims, A.M. Salter and D.R. Bell. 32
The role of a liver-testis axis in the development of Leydig cell hyperplasia
M. Coulson, G.G. Gibson, N. Plant, T. Hammond and M. Graham 51
Protein binding and metabolic inhibition reveals clues on the mechanisms surrounding relative potency of sensitising cinnamic compound
E.N. Elahi, Z. Wright, S.A.M. Hotchkiss, D.A. Basketter and C.K. Smith Pease 52
A review of the in-life parameters and tumour data from Han Wistar rat dietary and oral gavage tumorigenicity studies
W.N. Hooks, S.M. Harhing, I. Taylor 53
Cell spreading of liver and HepG2 spheroids and their applications in in vitro hepatotoxicity study
J. Xu, M. Ma and W.M. Purcell 54
Viability and function of cryopreserved rat hepatocyte monolayers as a function of cryopreservation media composition
D. Stevenson, C. Morgan, E. Goldie, G. Connel and M.H. Grant. 55
Toxicity of dithiothreitol and its activating effect on phase I and II enzymes in rat hepatoma-derived Fa32 cells
P.J. Dierickx and E.M. Scheers 56
Species differences in the metabolism of a NSAID to an acyl glucuronide and protein adducts in vitro
J.R. Kenny, J.L. Maggs, A.W. Harrell, S.E. Clarke and B.K. Park 57
Polyhalogenated compounds of appropriate configuration interact with mammalian or bacterial CYP enzymes to induce bilirubin and uroporphyrinogen oxidation in vitro
N. Pons, S. Pipino and F. De Matteis 58
Differential protection against cisplatin toxicity in rat and human proximal tubular cultures
R.D Wainford, G. Descotes, H. Merdjan, R. Weaver and G.M. Hawksworth 59
Differential effect of two type I and three type II pyrethroids on chloride channel activity
S.A. Burr and D.E. Ray 60
The effects of the organophosphate pesticide phosmet on the sensitivity of neuroblastoma cells to prion protein fragment PrP106–126
J.C. Axelrad, W.G. McLean and C.V. Howard. 61
Enhanced in vitro toxicity of the herbicide glyphosate to neuroblastoma cells chronically pre-treated with the organophosphate pesticide diazinon
J.C. Axelrad, C.V. Howard and W.G. McLean. 62

Polyamine analogues induce cell death in human cancer cells
A.V. Fraser and H.M Wallace. 63
2,3-dideoxycytidine-induced changes in gene expression in Molt-4 cells
J.D. Parry, T.M. Walker, A. Hurd, C.J. Waterfield and A.T. De Souza 64
Factors affecting percutaneous absorption of caffeine in vitro
L.C. Greaves, S.C. Wilkinson and F.M. Williams 65
Rat peripheral blood sample preparation for flow cytometry—strain-dependent suitability of red blood cell lysing reagents
E.L. Hunter, D.F. Lanham, J.M. Bidgood, M.G. Wing 66
Transcriptional profiling of compound-induced nephrotoxicity in the rat: cisplatin
V. Oreffo, S. Doughty, N. Brown, P. Glaves, T. Orton and C. Kind 67
An investigation of gene expression changes in glomeruli isolated using laser capture microdissection from rat kidney following puromycin aminonucleoside treatment
J.E. Bacon, J.E. Meakin, N.C. Bontoft, M.C. Aylott, P.G. Lord and U. Atif 68
Analysis of gene expression changes during nongenotoxic hepatocarcinogenesis
J.D. Oliver, K.J. Chipman and R.A. Roberts 69
The use of cDNA microarrays for assessing hepatotoxicity—an inter laboratory assessment
H.M. Harries, C.M. Duggan, R. Brown, H. Ni, J.D. Parry, A.T. De Souza and V.A. Baker 70
Expression in *Escherichia coli* and purification of the membrane-bound form of human cytochrome b5
T. Jiang and D.R. Bell 71
Quantitative analysis of cytochrome P450 induction: an in vivo/in vitro comparison
C. Rowe, S.J. Lucas, P. Murdock, A. Ayrton, R. Chenery and G.M. Hawksworth 72
Induction of CYP3A4 gene expression by glucocorticoids occurs by a PXR-independent, as well as a PXR-dependent, mechanism
V. Bombail, W. El-Sankary, G.G. Gibson and N. Plant. 73
Polymorphic variation in the human CYP3A4 gene 5′ regulatory region: effect of inherited mutation on xenobiotic transcriptional modulation
H. Hamzeiy, N. Vahdati-Mashhadian, H.J. Edwards, G.L. Swaisland and P.S. Goldfarb. 74
Absorption kinetics and local tissue distribution of aromatic azo dye compounds following topical dosing
R.U. Pendlington, H. Minter, D.J. Sanders, E.J. Brown, S. Hyde, J. Fentem and C.K. Smith Pease 75
Skin absorption and distribution of diethylenetriaminepenta-acetic acid
R.U. Pendlington, D.J. Sanders, H. Minter, E.J. Brown, S. Hyde, M. Snow and C.K. Smith Pease 76
A compromised skin barrier allows for the penetration of allergenic proteins
C.K. Smith Pease, I.R. White and D.A. Basketter 77

Contents of Volume 178 No. 2

Immunotoxicology

Alterations in immune parameters in foundry and pottery workers
N. Başaran, M. Shubair, Ü. Ündeğer, H. Canpınar, A. Kars (Turkey, Palestine) 81–88
Trimellitic anhydride (TMA) dust induces airway obstruction and eosinophilia in non-sensitized guinea pigs
C.P. Larsen, J.F. Regal (USA) 89–99
Immunomodulation by diethylstilbestrol is dose and gender related: effects on thymocyte apoptosis and mitogen-induced proliferation
J.B. Calemine, R.M. Gogal Jr, A. Lengi, P. Sponenberg, S. Ansar Ahmed (USA). 101–118
Immunoglobulin and autoantibody responses in MRL/lpr mice treated with 'toxic oils'
L.D. Koller, B.V. Stang, J.A. Hall, M. Posada de la Paz, M.V. Ruiz Mendez (USA, Spain) 119–133
Evaluation of cadmium-induced transcriptome alterations by three color cDNA labeling microarray analysis on a T-cell line
G.Th. Tsangaris, A. Botsonis, I. Politis, F. Tzortzatou-Stathopoulou (Greece) 135–160
Immuno- and neurotoxicological investigation of combined subacute exposure with the carbamate pesticide propoxur and cadmium in rats
L. Institóris, A. Papp, O. Siroki, B.D. Banerjee, I. Dési (Hungary, India) 161–173
Safety studies of topical imiquimod 5% cream on normal skin exposed to ultraviolet radiation
K. Kaidbey, M. Owens, M. Liberda, M. Smith (USA) 175–182

Contents of Volume 178 No. 3

Articles

Enhancement of TNF-α expression does not trigger apoptosis upon exposure of glial cells to lead and lipopolysaccharide
Y.-J. Cheng, B.-C. Yang, W.-C. Hsieh, B.-M. Huang, M.-Y. Liu (Taiwan, ROC) 183–191

Assessing the estrogenic potential of organochlorine pesticides in primary cultures of male rainbow trout (*Oncorhynchus mykiss*) hepatocytes using vitellogenin as a biomarker
L.-E. Okoumassoun, D. Averill-Bates, F. Gagné, M. Marion, F. Denizeau (Canada) 193–207

Expression of rat Multidrug Resistance Protein 2 (Mrp2) in male and female rats during normal and pregnenolone-16α-carbonitrile (PCN)-induced postnatal ontogeny
D.R. Johnson, G.L. Guo, C.D. Klaassen (USA) 209–219

Hepatocellular peroxisome proliferation and DNA synthesis in Wistar rats treated with herbicide fluazifop
G. Kostka, D. Palut, J.K. Ludwicki, J. Kopeć-Szlęzak, B. Wiadrowska, K. Lembowicz (Poland) 221–228

Influence of chronic ethanol consumption on toxic effects of 1,2-dichloroethane: glycolipoprotein retention and impairment of dolichol concentration in rat liver microsomes and Golgi apparatus
D. Cottalasso, C. Domenicotti, N. Traverso, M.A. Pronzato, G. Nanni (Italy) 229–240

Immunotoxicology

Analysis of 2,3,7,8-tetrachlorodibenzo-*p*-dioxin-induced gene expression profile in vivo using pathway-specific cDNA arrays
A. Zeytun, R.J. McKallip, M. Fisher, I. Camacho, M. Nagarkatti, P.S. Nagarkatti (USA) 241–260

Erratum

G.N. Greenberg (USA) 261

Internet resources for occupational and environmental health professionals
G.N. Greenberg (USA) 263–269
